ROOSTER —WEEK— JUNE 18-23, 1917

***Sell, Kill or Confine every Rooster
before June 23rd***

**PRODUCE INFERTILE EGGS
AND HELP INDIANA**

SAVE \$1,000,000.00

FACTS

Indiana markets 60,000,000 dozen eggs annually.

5% of these spoil because fertile.

This year these 3,000,000 dozen spoiled fertile eggs are worth \$1,000,000.00.

Is One Million Dollars worth trying to save?

Indiana will market 10,000,000 dozen eggs in July and August.

How many of these will you let the rooster spoil?

REASONS

Roosters cause fertile eggs.

Fertile eggs spoil quickly.

Hens lay just as well without roosters.

The rooster, then, is useless in summer.

Feeding a *useless rooster* is waste.

PREVENT WASTE---

**SELL, KILL OR PEN
THE ROOSTER.**

Don't Forget the Date--JUNE 18-23, 1917
